

WANG MECHANICAL

COUPLINGS AND REPAIR CLAMPS

Wang Components is one of the leading manufacturers and suppliers of grade 316 clamps and couplings for reticulated water, sewerage and gas distribution mains and industrial piping systems. The product range is widely utilised and specified by Water Authorities throughout Australia and New Zealand for both installation and maintenance of their reticulation network.

The Wang range is extensive covering all pipe diameter's and configurations with off the shelf and custom made fabrications. This price list covers a core range of commonly used products. If you do not see the size or configuration you require please do not hesitate to contact our sales team.
