

SERVICING AND CALIBRATION

Asmuss has an in-house service department with trained and certified technicians, that provide servicing, calibration, trouble shooting and repairs for all the tools we support which include Ritmo, PFS, Grossenbacher and Novapress.

Our service workshop has state-of- the- art manufacturers approved testing and calibration equipment and we hold a range of spare parts, so we can get your machines and tools back in the field as quickly as possible.

As authorised repair agents, we extend our services to all repairs and maintenance including items that have not been purchased through Asmuss.
